

THE POWER OF PERFORMANCE

We are a dynamic business with organizational and key leader Government and private sector project, program, and business development experience in the Intelligence Community (IC), Department of Homeland Security (DHS), and Department of Defense (DoD).

Our approach capitalizes on organizational and key leader experience to exceed expectations. With StellarPeak, customers gain a trusted small business that delivers technical expertise within customer culture and operational imperatives.

Our leaders combine 60+ years of Government and industry experience with best-practice processes and procedures to achieve all performance objectives.

CORE CAPABILITIES

Systems Engineering / Integration

- Full Life- Cycle Model
- Formal / Informal Testing
- Verification and Validation
- Requirements / Configuration Management
- Risk Management

Mission IT

- Asset Management
- Network / Software Engineering
- Systems Analysis, Design, Integration, and Transition
- Agile Engineering / Development
- Data Analytics and Decision Analysis
- Solution Architecture

Cloud Engineering / Integration

- Implementation Acceleration
- Amazon Web Services
- DevOPS

Integrated Cyber Solutions

- Information Assurance
- Cyber Security Engineering
- Penetration Testing
- Certification & Accreditation
- Malware Analysis

Training and Analysis

- Multi-Intelligence Analytical Support
- Modeling & Simulation
- Design, Control, After Action

PAST PERFORMANCE

Systems Engineering / Integration

- Support NGA geospatial infrastructure thru project management, formal and informal testing, coordinating transition events, systems integration services

Mission IT

- Solution architecture and analysis support to NGA and DHS
- Support NGA with full life cycle systems design, systems analysis, software engineering and creating system and software design artifacts

Cloud Engineering / Integration

- Develop, manage, and migrate solutions to C2S/AWS cloud for DHS
- Implement continuous integration and full-lifecycle Cloud DevOPS

Integrated Cyber Solutions

- Cyber analysis, monitoring, and Information Assurance subject matter expertise support to DHS

Training Support

- Simulation-driven exercise design, execution, and after action support to the U.S. Navy Tactical Training Group Pacific

COMPANY HIGHLIGHTS

Core Capabilities

- Systems Engineering / Integration
- Mission IT
- Cloud Engineering / Integration
- Integrated Cyber Solutions
- Training and Analysis

Priority Customers

- Intelligence Community
- Department of Homeland Security
- Department of Defense

Partners

- Vencore
- Engility / TASC
- ManTech
- SAIC
- Raytheon
- American Systems
- Deloitte
